INDEX TO ARTICLES

Annual review

British Glass performance and prospects 295 8
EEC glass container sector review 291 8
Food for thought 305 8
Glaverbel achieves sustained financial growth 307 8
Greek glassmakers face strong competition from imports 295 8
Italian glass industry reveals its potential 315 8
Pollution standards and control 303 8
Promising results from Germany 317 8
Rockware consolidates for bright future 299 8
SAV announces £10 million investment initiative 313 8
Schott group's continuing world growth 296 8
Spain reports increased glass packaging sales 303 8
Training in the glass industry 301 8
Transparency technology on show and in operation 309 8

Automotive glasses

Automatic inspection of bent glass: New possibilities and prospects 251 7
Car windscreen production aid 356 9
Co-operative development of electrically-heated windscreens 247 7
German float line geared to automotive glass demand 252 7
Glass contributes to solution of engineering and structural problems 255 7
New Fiesta glazing detail 250 7
Replacement glazing: A business of evolution 248 7

Batch plant

Custom-building service 133 4
Low pollution batch plant for German glassmaker 121 4
Trends in batch plant design 129 4

Clean room practices

Cleaning problems floored 415 10
Clean rooms and the glassmaking environment 405 10
Clean workwear considerations 410 10
Dust control — Product reclamation or legislative necessity? 412 10
High vacuum coatings for precision optics 409 10
Hygienically packed glass containers 231 7

Combustion technology

Combustion characteristics of fuels for glass melting 39 2
Fuel oil pretreatment for glass furnaces 52 2
Guide to combustion equipment suppliers 53 2
Practical operating and maintenance considerations for oil and gas burners 49 2
Tuning and upgrading fuel-fired glass heating operations 43 2

Company profile

BTA tourism award for UK crystalmaker 62 2
Controlled furnace heat up/cool down 395 10
Creating market opportunities for Irish lead crystal 59 2
Custom-building service 133 4
Energy saving pot furnace installations 63 2
Eyes have it, The 360 9
French holloware decoration expertise 433 11
Impactex Safety Glass — A decade of achievement 11 1
Optical industry pioneer 359 9
Plant investment shows confidence in premium packaging 281 8
Serving the needs of domestic appliance manufacturers 117 4
Specialist in mirror manufacture 361 9
Specialist safety glazings manufacturer introduces chemical toughening service 5 1
Toughening plant investment improves safety glass supply in Scotland 12 1

Confederation news

British Glass consolidates UK industry interests 27 1
British Glass performance and prospects 295 8

Conference report

Breaking with tradition in the hand-made glass sector 25 1
Glassmakers gather in the Kingdom of Crystal 327 8
Pollution standards and control 303 8
Waste gas workshop 492 12

Decoration

Ancient craft gains popularity 439 11
Ceramic coating of glass bulb envelopes 449 11
Changes in the decoration of glass using transfers 451 11
Decorating glass ceramic hobs 118 4
Decorative colour options 443 11
Enhanced design options with decorative flat glass 441 11
French holloware decoration expertise 433 11
Screenprinting and the glass industry 437 11
Smarten up! 435 11

Domestic appliance glassware

Cooking in comfort 116 4
Decorating glass ceramic hobs 118 4
Expanding OEM business for Corning Europe 115 4
Important role for glass in domestic appliance design 111 4
Serving the needs of domestic appliance manufacturers 117 4

Domestic glassware production

Bar codes bring major benefits 238 7
Breaking with tradition in the hand-made glass sector 25 1
BTA tourism award for UK crystalmaker 62 2
Creating market opportunities for Irish lead crystal 59 2
Glassmakers gather in the Kingdom of Crystal 327 8
Hand-made producer's approach 88 3
Modern technology reduces production costs 160 5
Who's who in the Kingdom 329 8

Electricity awards

Energy saving award winners 28 1

Emergency power

Standby power for continuous electric glass melting furnaces 321 8

Emission control

Electric melting and the environment 385 10
Measurement and control of SO_x and NO_x. 488 12
Reduced emissions and energy savings 397 10
Urea injection NO_x reduction 491 12
Waste gas workshop 492 12

Energy efficiency

Best practice in energy efficiency 109 4

Exhibition/conference news

Control & Instrumentation Exhibition 89 95 3
Glassman moves to USA in 1990 319 8
International packaging exhibition 65 2
New Orleans prepares for USA glazing show 257 7
Transparency technology on show and in operation 309 8

Flat glass production

Assessing the thermal safety of flat glass subjected to solar radiation. Part II: Basic temperature differences 22 1
Automatic recognition of glass ribbon defects 89 3
German float line geared to automotive glass demand 252 7
Glaverbel achieves sustained financial growth 307 8
Hard coat low-E glass introduced 119 4
Refining agents used in Pilkington glasses 81 3

Flat glass processing

Advancing cutting technology 99 3
Design award recognition 137 4
Enhanced design options with decorative flat glass 441 11
Flat glass washing — Techniques and compounds 19 1
High accuracy glass cutting 99 3
Impactex Safety Glass — A decade of achievement 11 1
New Orleans prepares for USA glazing show 257 7
Specialist in mirror manufacture 361 9
Specialist safety glazings manufacturer introduces chemical toughening service 5 1
Toughening furnace innovation 8 1
Toughening plant investment improves safety glass supply in Scotland 12 1

Glass container production

Controlling flint glass colour 83 3
EEC glass container sector review 291 8
First glass packaging material 213 6
Food for thought 305 8
Forming equipment updates 163 5
French holloware decoration expertise 433 11
Glass from brass 351 9
Hygienically packed glass containers 231 7
Increasing blow/blow process productivity 25 1
Italian glass industry reveals its potential 315 8
Lightweight champion claim 154 5
Low pollution batch plant for German glassmaker 121 4
Plant investment shows confidence in premium packaging 281 8
Plunger development improves manufacturing efficiences 157 5
Reducing scrap levels by effective mould pretreatment 349 9
Refining agents, colourants and decolourisers used in container glass 79 3
Rockware consolidates for bright future 299 8
SAV announces £10 million investment initiative 313 8
Serving the needs of glass manufacturers worldwide 153 5
Smarten up! 435 11
Spain reports increased glass packaging sales 303 8
Suspended walls for container furnaces 400 10
Thermal mapping programme 347 9
Using coke breeze for reduction and refining 87 3
Variations on a control theme 159 5

Page 503 ▶

Glassfibre production

European composites market review 455 11
Low volume manufacture of glass wool 456 11
Refractories for glassfibre melting furnaces 459 11
Saint-Gobain invests in Korea 455 11
Urethane-compatible glassfibre for preform reinforcements 173 5
Wide ranging applications predicted for glass microfibres 457 11

Glass forming

Development of high temperature glass forming burners 166 5
Forming equipment updates 163 5
Improved technologies for mould components 168 4
In a spin? 264 7
Increasing blow/blow process productivity 25 1
Lightweight champion claim 154 5
Modern technology reduces production costs 160 5
Plunger development improves manufacturing efficiencies 157 5
Serving the needs of glass manufacturers worldwide 153 5
Swiss company services glass finishing sector 267 7
Urethane-compatible glassfibre for preform reinforcements 173 5
Variations on a control theme 159 5

Glass melting technology

Accuracy and repeatability critical for furnace duties 193 6
Combustion characteristics of fuels for glass melting 39 2
Controlled furnace heat up/cool down 395 10
Controlling flint glass colour 83 3
Electric melting and the environment 385 10
Energy saving possibilities with honeycomb bricks 389 10
Energy saving pot furnace installations 63 2
Flexible melting furnace concept 380 10
Forehearth temperature control specification 201 6
Fuel oil pretreatment for glass furnaces 52 2
Guide to combustion equipment suppliers 53 2
Hand-made producer's approach 88 3
High temperature oxygen monitors for glass furnaces 197 6
Melting furnaces employs ceramic fibre construction 262 7
Practical operating and maintenance considerations for oil and gas burners 49 2
Reduced emissions and energy savings 397 10
Refining agents, colourants and decolourisors used in container glass 79 3
Refining agents used in Pilkington glasses 81 3
Standby power for continuous electric glass melting furnaces 321 8
Suspended walls for container furnaces 400 10
Tuning and upgrading fuel-fired glass heating operations 43 2
Using coke breeze for reduction and refining 87 3

Handling/packing

Bar codes bring major benefits 238 7
Goods handling and loading 417 10
Hygienically packed glass containers 231 7
Lehr discharge mechanism improves handling efficiency 240 7
Maximising profits at the hot end 235 7

Health and safety

Cleaning problems floored 415 10
Clean rooms and the glassmaking environment 405 10
Clean workwear considerations 410 10
Dust control — Product reclamation or legislative necessity? 412 10
Thermal insulation makers report RCF inhalation test results 497 12

Industry trends

Looking forward to 1992 495 12

Insulated glazing

Double glazing renovation 21 1

Keep it clean

Flat glass washing — Techniques and compounds 19 1
Precision cleaning for precision glassware 17 1

Laboratory services

Material benefits of applied research 417 10

Lighting glassware

Ceramic coating of glass bulb envelopes 449 11
Neon tube manufacturer achieves productivity improvements 139 4

Mirrors

Mirrors never lie 364 9
Specialist in mirror manufacture 361 9

Mould equipment

Glass from brass 351 9
Improved technologies for mould components 168 4
Mould cooling research 204 6
Mould machining operations 353 9
Patterned moulds from ceramics 345 9
Reducing scrap levels by effective mould pretreatment 349 9
Thermal mapping programme 347 9

Optical glass

High vacuum coatings for precision optics 409 10
Optical industry pioneer 359 9
Optical glass temperature monitoring 453 11
Precision cleaning for precision glassware 17 1

Process/quality control

Accuracy and repeatability critical for furnace duties 193 6
Automatic inspection of bent glass: New possibilities and prospects 251 7
Automatic recognition of glass ribbon defects 89 3
Benefits of radiation thermometers 208 6
Control & Instrumentation Exhibition 89 95 3
Forehearth temperature control specification 201 6
High temperature oxygen monitors for glass furnaces 197 6
Optical glass temperature monitoring 453 11
Theory and practice of temperature measurment 207 6
Thermal mapping programme 347 9

Raw materials

Controlling flint glass colour 83 3
Dolomite in the UK glass industry 479 12
Hand-made producer's approach 88 3
Lithium mineral industry, The 481 12
Refining agents, colourants and decolourisers used in container glass 79 3
Refining agents used in Pilkington glasses 81 3
Two decades of raw materials development 475 12
Using coke breeze for reduction and refining 87 3

Recycling

Dutch recycling specialist 220 6
First glass packaging material 213 6
Model glass recycling scheme 216 6
Recycling development and technology update 217 6

Refractories

Energy saving possibilities with honeycomb bricks 389 10
Refractories for glassfibre melting furnaces 459 11
Suspended walls for container furnaces 400 10

Regular features

Focus on flat 30 1 70 2 100 3 140 4 185 5 222 6 269 7 370 9 422 10 466 11 501 12

Safety glazings

Car windscreen production aid 356 9
Export opinion on security glazing 10 1
Impactex Safety Glass — A decade of achievement 11 1
Specialist safety glazings manufacturer introduces chemical toughening service 5 1
Toughening furnace innovation 8 1
Toughening plant investment improves safety glass supply in Scotland 12 1

Scientific/laboratory glassware

Planning a glassblowing workshop 175 5
Scientific glassware specialisation 179 5

Stained glass

Glass research at York Minster 181 5

Temperature measurement

Accuracy and repeatability critical for furnace duties 193 6
Benefits of radiation thermometers 208 6
Forehearth temperature control specification 201 6
High temperature oxygen monitors for glass furnaces 197 6
Mould cooling research 204 6
Theory and practice of temperature measurement 207 6

Thought for the month

Dictionary of 'buzz-words', A 104 3 144 4 188 5 272 7
Total quality management 224 6
